WATER CHILLER

EFFECTIVE and
reliable **COOLING** for
your pool

Control from a
CONVENIENT
phone app

TropiCool[®]

COOL YOUR POOL RELIABLY

The TropiCool® Water Chiller is designed to lower the temperature of your swimming pool to a refreshing and enjoyable experience throughout the summer. A heat pump gives you consistent performance, while evaporative cooling systems struggle to keep up in humid climates.

- Set your desired temperature to maintain
- Helps conserve water, does not work on evaporation
- Consistent performance regardless of humidity
- Titanium heat exchanger impervious to harsh water chemistry
- SMART control panel with 24 character full-text display provides easy-to-read menu options and unit status
- Operating cost for TC500 is 50¢ per hour, TC1000 & TC1500 are 75¢ per hour (Based on 12¢ per kWh)
- Ability to chill as low as 40°F for cold plunge pools
- TC500 for cold plunge up to 2,000 gallons; TC1000 for cold plunge up to 3,000 gallons; TC1500 for cold plunge up to 4,000 gallons
Cold plunge pool sizes refer to residential use only. The bather load of a commercial plunge pool will require a larger unit.

Now PoolSync® READY

Adjust your temperature setting right through your phone in the PoolSync app

*Additional purchase of PoolSync WiFi Controller required

		TC500	TC1000	TC1500
Electrical	Voltage/Hz/Phase	208-230/60/1	208-230/60/1	208-230/60/1
